Tailwind

PROJECTS

MERN Stack Supermarket Site

September 2022 - October 2022

- Built an Ecommerce website to sell products of multiple categories with MongoDB, Express, NodeJS and ReactJS. The main functionalities are authentication, search, filter, wishlist, checkout, reviews, etc.

Client: <https://elaborate-chimera-ea1e59.netlify.app/>

API: <https://nyan-store-production.up.railway.app>

E-commerce Site

GentleNyan — Feb 2022

A functional website specialized in selling male fashion items

- Built a serverless web app to allow users to choose and buy the items they wish for along with authentication, manipulating database, storage.
